

Amend claims 1 and 4 as follows:

591  
B1  
Claim 1 (Amended twice). Laminate composed of at least a first layer of an elastic polymer film and of a second layer of an elastic textile sheet, where the finished laminate has either a microembossed effect, a macroembossed effect, or both, and

wherein a self-adhesive coating has been applied onto the textile sheet side.

B2  
Claim 4 (Amended twice). Laminate according to claim 1, wherein the polymer film of the first layer is a copolymer of ethylene and an  $\alpha$ -olefin having a carbon number from C<sub>4</sub>-C<sub>10</sub>, where the copolymer has a melt index of from 1 to 20 g/(10 min) and density of from 860 to 900 kg/m<sup>3</sup>.

Claim 6 (Amended twice) Laminate according to claim 1, wherein the polymer film of the first layer comprises at least 65 wt.-% of a thermoplastic elastomer.

Add new claims 15-20 as follows:

Claim 15 (New). The laminate of claim 1, wherein only the polymer film layer is embossed.

Claim 16 (New). The laminate of claim 15, wherein the polymer film layer is microembossed.

Claim 17 (New). The laminate of claim 1, wherein the textile layer is macroembossed.

Claim 18 (New). The laminate of claim 17, wherein the textile layer is microembossed.

Claim 19 (New). The laminate of claim 1, wherein the first and second layers are macroembossed.
